TECHNICIAN CLASS

Bill Hackett/N3XMZ is teaching his second Technician's class underway on Wednesday evenings. The class has five students. Please take the time and stop by one Wednesday evening and introduce yourself to the soon-o-be-new-hams.

FIELD DAY

June we will be participating in **Field Day**. At our June General Meeting we will be discussing the various planning stages for this year's Field Day.

Remember that Field Day is an annual event held on the last FULL weekend of June. So this year's Field Day will be on Saturday and Sunday, June 26 and 27, respectfully.

Thanks to **Bill Hackett/N3XMZ** and his son **Chris Hackett/KB3TBA** for securing the location again. Cross Roads Church (formally Rock Church) located in St. Leonard will be our spot for Field Day. A large flat piece of land surrounded by many tall trees and a cover building make this a ideal location for setting up.

We will need many hands for setting up early Saturday, June 26. We begin setting up at 10:00 AM and ready for our first contact at the start of Field Day at 2:00 PM. The number of stions we operate will ne made at our June General Meeting.

Since this is a 24-hour drill as much as a contest event, we will operated under emergency power. **Steve Urquiza/N3IDX** will have a generator, **Bill Hackett/N3XMZ** will be using his newly acquired solar panels and others will be using batteries. **Shawn Donley/N3AE** and **Larry Harrison/K3JRR** will provide some of the antennas. The club will provide refreshment, depended on a approval of the members. **Don Kirby/KR3A**, **Ron Byzet/W3PRR** and others will provide HF radios. **Dave Weaver/KA3PQS** said he can video tape some so we can be part of this year's Section Field Day video and perhaps **Facebook**.

Field Day has always been one of the most exciting events for CARA members, With so many new members to the roster, this year's Field Day promises to be one of the best ever. We hope everyone can be here to participate!!!

JUNE MEETING AGENDA

CARA

7:30 - 7:35	CALL TO ORDER
